ELEVATE YOUR FLEET'S SAFETY

MyFleetFinder Fleet AI SafetyCam

80% of car crashes are attributed to reckless driving.
Take the next step to elevate your fleet's safety.

The MyFleetFinder Fleet AI SafetyCam offers fleets of all sizes a powerful device to enhance driver and fleet safety. Designed using first-hand insights from fleet managers, it is equipped with road facing and driver facing HD cameras, providing fleets with access to live and recorded video evidence of harsh driving incidents and traffic violations.

Using artificial intelligence and computer vision, the MyFleetFinder Fleet AI SafetyCam detects stop sign violations, stop light violations, reckless driving, tailgating, collision awareness, and much more. Additionally, our AI SafetyCam provides drivers with real-time in-cab audio alerts of potential risks.

The MyFleetFinder Fleet AI SafetyCam works seamlessly with the MyFleetFinder Fleet mapping platform to provide real-time notifications and easy access to viewing video events. Our AI SafetyCam will help companies develop a safer and more responsible fleef drivers.
